

# Back to School in Walnut Creek

## Traffic Safety Reminders

## Follow the Rules of the Road

The City of Walnut Creek would like to remind staff, parent drivers, student drivers, and visitors returning to school campuses to be respectful of all traffic laws while driving. Oftentimes, we see higher speeds around schools as drivers rush to get to school before the starting bell.

- Slow down**
- Be cautious**
- Be alert**
- Stay off your phone**

As soon as you or someone you love gets out of the car, they become a pedestrian too. Watch out for kids and adults that are walking, biking, scooting, and skating to school.

The most common traffic violations around schools are speeding, running stop signs, and crossing the double yellow line. Speed limits, stop signs, and striping are there to make our roads safer.

## Plan Ahead

Explore your options to get to school.

## Walk & Roll

The City has many bicycle facilities and walking options. Take a moment to review your route to school. Can you walk or roll? Walking and biking is not only good for you but it is also good for the environment.

## Carpool

If walking or biking is not an option, explore joining a carpool.

To learn more about other programs available, check out [Street Smarts Diablo](#).

It shouldn't take a ticket to be a safe driver.

## Reach out!

Where can traffic safety be improved?
