School Crosswalk Improvements

Did you know that yellow crosswalks indicate a school crossing? When you see the yellow, look for school children.

Advanced Pedestrian Walk Time

Leading Pedestrian Intervals (LPI) were added to intersections with traffic signals and yellow crosswalks. This means that pedestrians will get the walk symbol before the vehicles get the green. Those few extra seconds allow pedestrians to get out into the crosswalk where they are more visible to approaching drivers.

No Signal? No Stop Sign?

New Paddle Signs

Paddle signs have been added at the busiest school crosswalks without a signal or stop sign. Paddle signs are an additional reminder to drivers that they are approaching a crosswalk and should yield to pedestrians.
